I have tried all sorts of things and have never been able to get it to work. I have an image of an arrow pointing to the right. The problem is, I want to be able to draw a line (red arrow) to the right of the arrow pointing to the right. This is where I am at:

```
private Image DrawArrow(int width, int height)
{ Image returnImage = Image.FromFile("C:/Use
rs/ABC/Desktop/myimage.jpg"); int x = 0; int y
= 150; int width = 250; int height = 130;
Graphics graphics =
returnImage.GetGraphics(); SolidBrush color =
new SolidBrush(Color.Red); graphics.DrawLine
```

anydesk. Ultrasonographic evaluation of blood supply to the femoral head in an experimental model of secondary osteonecrosis in rabbits. An experimental model of arthrotic secondary osteonecrosis of the femoral head in rabbits was used to evaluate the blood supply to the femoral head using a ultrasonographic technique. A total of 50 rabbit femoral heads were divided into seven groups and underwent one of the following procedures: sham operation, injection of ethyl cyanoacrylate into the femoral head, or two-stage sclerotherapy of the femoral head. Two weeks after surgery, the heads were evaluated using ultrasonography. Doppler signals were present in the femoral heads of all animals and preoperative

---

ultrasonography detected hyperemic vessels from the deep circumflex iliac artery to the head and neck of the femur. However, two-stage sclerotherapy appeared to cause more severe vascular compromise and more extensive damage to the blood supply to the femoral head than other surgical techniques. We conclude that ultrasonography is useful for the evaluation of vascular compromise in experimental models of secondary osteonecrosis of the femoral head.
